New Amendment

RE: **Amendment to Update Appendix XIV, Phase 1 Reclamation Plan, PacifiCorp, Des Bee Dove Mine, C/015/017, Emery County, Utah**

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West"), as mine operator, hereby submits an amendment to the above stated appendix volume of the Des Bee Dove Mine MRP.

Reclamation at the mine site was completed in June 2003. The site reclamation altered from the plan because of construction equipment constraints, lack of substitute soil resources, and lack of rock riprap materials. The plan called for a vegetative strip left in place below the bathhouse pad. However, a decision was made in the field with cooperation with the permittee, reclamation contractor, and the Division to excavate the soil from the bathhouse working from top to bottom of the canyon.

The enclosed amendment contains changes to the RUSLE model that predicts sediment loss from the disturbed areas of the mine site. With the change in disturbance on the said slope, the slope length equation within RUSLE must also be changed.

Attached is seven (7) redline/strikeout pages and seven (7) clean copies of Section R645-301-700: Hydrology, Appendix B, page 3. Also included is seven (7) 3.5 inch floppy disks with the all existing and corrected RUSLE data. The required C1/C2 forms are also included with this submittal. If you have any questions please contact Dennis Oakley at (435) 687-4825.

Sincerely,

Charles A. Semborski
